

*VISMARA - SY MIYABI*  
*20.66m (68'), CAPACITY: 8*

## VISMARA - SY MIYABI

Italian shipyard Vismara's history has been marked by its continuing tendency to innovate in the world of luxury yachts, without ever resting on their laurels. Miyabi is a great example of another step forward in yacht design specially for the re conceptualisation of internal and external spaces from the standpoint of ease of easy sailing. Her interior design is ground breaking; the kitchen area has been moved forward of the saloon, in a lower part, to clearly define the separated functions of this environment while leaving an «open space» in the living room. The central area of the boat is characterized by a module that includes a new generation of «telescopic» keel which allows the reduction of draft from 3.60 to 2.20 m while encumbering only 80 cm inside the boat. The central furniture was also integrated with the engine, in this way not only that it is far from the cabins there for quieter inside the cabins, but also offers the best concentration of the weights. All cabins have bathrooms moved in to the aft, and this provides a high liveability in the cabin, allowing an access to both sides of the beds. the bathrooms in the stern increases the quietness and privacy. Miyabi is based in Real Club Nautico of Palma de Mallorca all year around and she is ideal to explore the Balearics under sail.

<b>YEAR</b>	2008
<b>TYPE</b>	Sailing yacht
<b>BEAM</b>	4.82m (16')
<b>LENGTH</b>	20.66m (68')
<b>CAPACITY</b>	8 plus 2 crew
<b>PRICES:</b>
